DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Stephen A. Gratton on 5/6/05.

The application has been amended as follows:

In the claims:

In line 15 of claim 57, delete "." and insert, -- ; --,
after line 15 of claim 57, insert --wherein a package bow measured from a theoretical flat profile FP is less than about 3 mils.—

Cancel claim 64.

In line 3 of claim 61, delete "and the second member comprises a second filler".

In line 15 of claim 65, delete "." and insert, --;—,
after line 15 of claim 65, insert --wherein the first member is configured to reduce a package bow measured from a theoretical flat profile FP to less than about 3 mils.—

Cancel claim 68.

In lines 2-3 of claim 69, delete "and the second member each",

In line 3 of claim 69, replace "include" with --includes--.

In lines 2-3 of claim 82, delete "and the second member",

In line 3 of claim 82, replace "comprise" with --comprises--.

REASONS FOR ALLOWANCE

Claims 57-58, 60-63, 65-67 and 69-82 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to disclose the combination of all the limitations recited, including a first member and a second member having geometries selected to reduce thermo-mechanical stresses and a package bow measured from a theoretical flat profile FP is less than about 3 mils (claim 57); a second member encapsulating the first member, wherein the first member is configured to reduce a package bow measured from a theoretical flat profile FP to less than about 3 mils (claim 65); a polymer member on the lead frame having a selected geometry configured to equalize the first volume and the second volume and to reduce a package bow measured from a theoretical flat profile FP to less than about 3 mils (claim 71); and the first member and the second member having a geometry selected to reduce thermo-mechanical stress in the package and to provide a package bow measured from a theoretical flat profile FP of less than about 3 mils (claim 78).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
